COMMERCIAL HOTEL,
Corner of Wall and Water Streets......Bangor

THE subscriber would respectfully give notice to his friends and the public, that he has taken a lease of the spacious and elegant building on the corner of Wall and Water streets and opened the same as a Hotel. It has been fitted up in superb style—contains several fine suits of rooms, parlors and chambers—and altogether will compare favorably with any hotel in Maine. Its locality is central and convenient for persons visiting the city on business and for those intending to take the steamers being near the steamboat landing.

PARTICULAR NOTICE.
BOARDMAN & JOHNSON,
No. 9 Granite Block,
East Market Place.............BANGOR,
(Successors to D & T. STONE,)

HAVE the pleasure of informing the public that they have purchased the stock of the late firm of D. & T. Stone, and are prepared to manufacture in the best style those superior LUMBERMEN'S BOOTS which have heretofore given so high satisfaction, and which are every where pronounced altogether the best Boots on the River

They are prepared to execute all kinds of custom work from excellent stock, and in good style.

In order to suit all tastes, and to keep plump up with the fashion of the day, they have recently purchased of the best manufacturers in the country, a fine assortment of

Ladies' and Misses' Boots and Shoes,

all of which they will sell uncommonly low for the cash.

They intend by strict attention to business, faithful workmanship, and a regard to the wants of their customers, to deserve success; and they invite the public, and particularly the customers of the late firm of D & T Stone, to give them a fair trial.

DR. WARREN'S
SARSAPARILLA, TOMATO AND WILD CHERRY
PHYSICAL BITTERS,
At 50 cents per Bottle.

SARSAPARILLA, TOMATO and WILD CHERRY BITTERS have now become a standard Medicine, universally approved by Physicians as a safe, speedy, and effectual remedy for Scrofulous, Mercurial and Cutaneous Diseases; Jaundice, Indigestion, Dyspepsia, Bilious disorders, Liver Complaints, Costiveness, Weak and Sore Stomach, Ulcers and running Sores; Swelling of the Limbs, Pain in the Bones, Tumors in the throat, Rheumatic affections, Salt Rheum, Erysipelas, and Ulcers, Eruptions on the face or body, Cancerous sores, King's Evil Chronic Catarrh, languor, debility, headache, dizziness, sallow complexion, and all those disorders which arise from the abuse of Mercury, or from an impure taint in the blood, no matter how acquired.

The extract here presented is prepared after directions given by the celebrated Dr. Warren, whose name it bears, and it will be found superior to any preparation of the kind now in use. It is highly concentrated, entirely vegetable, and very finely flavored to the taste The change which it produces in the condition and tendency of the system is speedy and permanent.

As a Spring Medicine for purifying the blood—strengthening the stomach and body, and checking all consumptive habits, the Sarsaparilla, Tomato and Wild Cherry Bitters are entirely unrivalled

Prepared and sold by DAVID F. BRADLEE, at the Magazine de Santé, (Magazine of Health,) 130 Washington street, Boston. NOTICE is hereby given that the mortgages made by the mortgagors named below, and bearing date as herein stated, were given to Joseph H. Hayward and Louisa G Davenport, now Louisa G. Wigglesworth, of lands situated in the city of Bangor, as therein described, to wit:

A mortgage of John Sargent, Jr, and Garret Walker, of lot No 4 May street, dated April 15, 1831; also a mortgage of the same mortgagors of lot No. 2 on First street, dated July 7, 1832;

Also a mortgage of John C. Dexter, of a water lot on Penobscot river, bounded easterly by Thomas' wharf, southerly by said river, westerly by land of William Emerson, and northerly by Front street dated April 6, 1832,

Also a mortgage of Elisha H. Allen of two water lots on said river, one being the same lot as described as mortgaged by said John C Dexter described above and the other is bounded westerly by Thomas' wharf, northerly by Front street, easterly by land formerly owned by Abner Taylor & John Barker and southerly by Penobscot river, dated April 6, 1832;

Also a mortgage of John H. Prince, of lot No 13 on Union street, dated June 11 1832; also a mortgage of Wid Prince, of lot No 1 on Second street, dated November 16, 1831, also a mortgage of said Prince, of lot No 2 on Second street, dated August 15, 1833;

Also a mortgage of Samuel Welch, of lot No. 7 on Fourth street, dated September 18, 1832;

Also a mortgage of Samuel Hinden, of lot No. 7 on Hammond street, dated February 19, 1835;

Also a mortgage of Joshua Carpenter, of lot No. 5 on Davenport Square, dated July 9, 1834;

Also a mortgage of Thomas J. Brown, of lot No 14 on Third street, dated June 21 1836; and

Also a mortgage of Benjamin F. Stevens, of the southwesterly half of lot No 22 on Fourth street, dated February 23 1836

Said lots are laid down on a plan taken by Zebulon Bradley, in the year 1829 Said mortgagees allege that the condition in said mortgages has been broken, by reason whereof they claim a foreclosure.

Suggestions to Young Men.

We fear that the young men of our city are giving themselves up altogether too much to the dance and the season, and trust too much for happiness in the poor objects of animal gratification. This ought not to be. They have too high a mission thus to sacrifice to low and unworthy objects. The public authorities of the city have provided good schools for the children and youth of our city even to the equal demands, during the winter season a school for apprentices and the advantages of these all may reap. But these at best form only the first steps in an education. A [illegible] citizen should earnestly reach forward to as their right and a thought which they ought not to feel content[ed].

But aside from attendance at school, how few are interested in the subject of acquiring knowledge. How few scientific [illegible] are made, how little interest is felt, how few the combinations to promote [illegible]. Of the [illegible] which in our city they are very numerous, but principally, when called together—but by few of them to task themselves with any regular study, any [illegible] of science any well defined mental pursuit.

The Mechanics' Association affords by its library and the exercises at its regular weekly meetings the means of intellectual culture for mechanics and their apprentices, but only comparatively a few avail themselves of the advantages thus furnished while there are young men in many other pursuits who have even less advantages and who live on, poorly aware of the precious hours that are flitting by, and of the rich and life lasting and soul satisfying fruits which might by application bring them.

We tremble when we think how easily the lure of temptation may entangle and overturn those who have no regular mental pursuit,—steadfast and fixed principles, no elevating and noble aims, no large and comprehensive ideas of the dignity and worth of their powers, and no manful struggle to fulfil the expectations of [illegible] no reverence for the purity of their lives, the strength of their mind and the growth of the religious sentiment which God has planted within them.

It is not our purpose to charge crime upon the young men of our city. We have not the disposition nor are we warranted by facts in our possession of saying a word likely to [illegible] them. Still we do feel it a duty to urge the [illegible] more active measures for mental culture and for moral elevation. If they lived for themselves alone, and had no interest in the upbuilding of society, but were placed here merely to secure the few pleasures they would [illegible] find that the dignities [illegible] are vastly greater than any [illegible] the [illegible] sense— [illegible]

We wish then to direct the attention of the young men to the importance of the encouraging not only of private study but of the [illegible] tenance of debating clubs and of social mutual instruction and [illegible] that while they may enjoy social intercourse [illegible] can be employed to the best purposes. These associations among young men cost but little, and they would be productive of great good could largely aid in [illegible] their members [illegible] develop all powers upon the subjects [illegible].

Our [illegible] large claims upon young men. [illegible] the experience [illegible] prepared for the responsibilities which are to be laid upon them.

The welfare of the future rests in their hands and they have need to be thoroughly furnished to resist and to overcome [illegible] to perform. Every member of the community [illegible] interested in the matter [illegible] those concerned for the social welfare [illegible] the political elevation of society—those anxious for the church of God and the truths of religion, should desire to have the young men of our times interest themselves with active minds and firm resolves and devoted hearts to the acquisition of knowledge and to mental and moral elevation.

☞ There are those who exult greatly in the prospect of acquiring large additional territory by reason the war with Mexico who anticipate great advantages [illegible] immigrants to our population and who delight in the glory which this acquisition will shed upon the status of our country. For ourselves, however, we must say that from all we can learn respecting the soil and climate of Mexico, the modes of culture there, and the character of the mass of her population, greatly as we abhor war, we should prefer going to war to make Mexico take back her territory and her population and to take care of them as a separate nation, than to retain them even if we had them in possession.

The Scientific American says that a company is about to be formed in New York, for an air tube to be laid between that city and Boston, for the transportation of messages and parcels, in connection with the Air [illegible] Railroad. The air is exhausted out of the pipe and the parcel to be sent either to New York or Boston, is fitted close to the tube and the air let in behind, when away through the region of vacuum the parcel wings its onward way!

Every man certainly has a right to live, and the duty of every just man is to let him live. Blessed be the day, if come it ever should, when men will learn that his own true prosperity is essentially involved in the prosperity of his neighbor.

The Small Pox.

There are a great many exaggerated reports in circulation about the city and about the country in relation to the existence of the small pox in this city. We have been so situated officially as to have the means of knowing the extent of the disease and the methods taken to prevent its spreading, but we have not felt it a matter of duty in the way of warning the public, as we certainly should have done had we deemed it dangerous for people to come in from the country, to make mention of the existence of the disease. We should not, perhaps, now comment on the matter had not the Gazette alluded to it under circumstances calculated to increase the alarm in both city and country.

We would now state distinctly the facts.— The small pox has within a few weeks been introduced into our city from three sources.

It was first brought here from the Province of New Brunswick by a man who stopped at the house of a friend in the city on Pearl street, and there communicated it to a person residing in the family. From this source the disease has occurred—however in one house, three of the first died, and the others are nearly all recovered.

From the second source brought from Boston five cases occurred. Four of these have recovered and the other is a slight case of varioloid.

The other source was from Boston, and that by a [illegible] man from whom it was communicated to his family on Main street where there were three cases, and they are all recovering.

When the disease first appeared here the physicians were very [illegible] in their desire to [illegible] and greatly carefully hover around the bed of the sick and thus exposed themselves to infect [illegible]. They were careless also of the health of others, as well as heedless of their own and from these causes many cases happened [illegible] as the city authorities were [illegible] to maintain a night and day police over the infected dwellings.

In the other cases, by prudence and cleanliness the disease has not spread nor will it be likely.

There is, we think, very little danger of the spread of the disease after its existence is known, as any prudent [illegible] family beyond their own [illegible] and not even among them, if properly vaccinated.

The whole matter then of the small pox in this city amounts to this, that there have been in all twenty one cases, three of which have died and the others have all recovered with the exception of two who are recovering, and at no time has the public health been exposed after the existence of the disease being known.

We have taken the precaution to read this article in manuscript to the Mayor, who has the special charge of the health of the city, and he confirms its correctness and we may add approves its publication.

☞ The following song was written by a lady of this city and sent to Professor Wm T Hopkins the popular teacher of music, as a token of gratitude to him as the author beautifully expressed it for the pleasant sounds with which the school the street and the house are now vocal through his instrumentality.

SONG OF THE SLED.

Oh come, come away, [illegible] now repaying
Thy broken [illegible] care
[illegible]
And slide, slide away
Then [illegible] while [illegible] cease,
With merry shouts and heart at peace
[illegible] weariness
We'll slide, slide away

The winter snow has come the boys and girls are
peering,
With joy [illegible]
The [illegible]
[illegible] clear the way,
And if our course be [illegible]
From all that [illegible]
A clean heart merrily shall clear, clear the way

The school [illegible] over the long hill before us
With gentle [illegible],
[illegible]
Then speed, speed the way
Then as the path [illegible] we tread
[illegible]
A starry sky over head, we'll speed, speed away

Now hold on firm the faithful sled is starting,
For merry [illegible]
And [illegible]
[illegible] bear away
[illegible] as the [illegible] true
[illegible]
Of Life's most [illegible] and bear, bear away

[illegible] hours are gliding
[illegible]
And own his love
To cheer, cheer the way
Then if our own [illegible]
And keep our course [illegible]
Our [illegible] cheer, cheer the

☞ The following flattering notice of the Cherry Pectoral of Mr James C. Ayer of [illegible] is from [illegible] in Vermont. Our own experience of the merits of the preparation accords with that of the Free Press as recorded in the concluding sentence of the article below.—Lowell paper.

We do not often take pains to speak of any of the numerous nostrums that are daily advertised in the city and other papers for the cure of disease and simply [illegible] of them are no better for the purposes for which they are recommended than so many preparations of [illegible] course not pretending to know any thing of them [illegible] of the efficacy of this somewhat famous and popular Cherry Pectoral prepared by Dr James C. Ayer of Lowell Mass. We believe this medicine to be in an unusual extent what it purports to be—we can say and it is the highly favorable testimony that it has received from standard authority in medicine and the experience [illegible] our country we see no reason to doubt that it will prove largely instrumental in arresting the prevailing disease and terror of our climate—Consumption. Mr Ayer is an apothecary and Chemist of established high reputation, and [illegible] Pectoral. We believe the ingredients which enter into this pleasant compound have been made known to the Medical profession, and [illegible] and that they have been pronounced to possess, in the combination adopted by Mr Ayer, curative properties of remarkable efficacy. We have noticed in the Boston Medical and Surgical Journal, a periodical of high character with the profession a notice of the Cherry Pectoral, in which its remedial qualities for the cure of pulmonary complaints are very warmly approved. We may take the liberty to say, also that the venerable and distinguished President of the Medical College at [illegible], in our own State has bestowed on the medicine the highest praise as a composition of rare excellence, for the prevention and cure of this formidable [illegible]. We are glad to add our own testimony (which has the advantage certainly of being fortified by experience,) in favor of the active efficacy of the Pectoral in the milder forms of colds and coughs.

Debate in the United States Senate.

WEDNESDAY, Jan. 5

THE TEN REGIMENT BILL.

The Senate proceeded to the consideration of the bill to authorize the raising of ten regiments for the regular army.

Mr. Crittenden—I rise for the purpose of offering an amendment to strike out all after the enacting clause, and insert what I now send to the Clerk, which is nothing but a transcript of the bill, which also lies behind this one on the calendar for raising 20,000 volunteers, with an increase in the number to 30,000.

[The amendment was here read by the Secretary.]

Mr. Crittenden continued—I do not propose, on this occasion, to say more than will be barely necessary to explain the amendment which I have had the honor of offering to the bill now before you. The bill which is now under consideration for raising ten additional regiments, and the bill lying upon the table to succeed it, authorizing the President to accept the services of 20,000 volunteers, have severally been reported from the Committee on Military Affairs in accordance with the recommendation of the Secretary of War, and are supposed to be necessary to meet the requirements and exigencies of the present war with Mexico. The bill now [illegible], sir, proposes to raise 10,000 men, or ten additional regiments, and what I propose is, to give to the government the necessary numerical force, only changing the form of its organization from a regular to a volunteer force.— And, I desire to state very briefly the reasons which have induced me to adopt this course.

The bill before you for raising the ten regiments, places upon Congress the responsibility of declaring that under the present existing circumstances, it is proper and necessary that this force should be raised. Is there any such present necessity perceived by the Senate of the United States? I think not, sir. We have from the Secretary of War and a message [illegible] plans upon which it has been suggested that this war ought to be prosecuted. The Secretary in discussing these recommends the plan which he prefers, viz. to hold all those portions of Mexico which are now in our possession, and in addition to these whatever may be necessary to accomplish such a purpose, to have an active force raised not with the view of marching over and conquering the whole country, but with the view of being prepared to make occasional conquests, should circumstances require it.— This is his plan. Now, is any additional force necessary, I would ask, to accomplish the design of the Secretary, taken even in the most latitude? This, sir, would be a question of a very indefinite character indeed, if our experience had not, in some degree, become a practical one. And what is our experience?— What have been our experiences in this war? and what have been the results of the war?

Gen. Scott landed at Vera Cruz with a force of about 12,000 or 13,000 men, a considerable number of whom were volunteers. With this force he succeeded in taking the strong Castle of San Juan de Ulloa and the city of Vera Cruz. Pressing forward with his small numbers, from Vera Cruz he entered the Capital, breaking to pieces and scattering to the winds with a force of less than 10,000 men the armies of Mexico in her triumphant career. Gen Taylor with a still smaller comparative at the battle of Buena Vista completely broke the power of Mexico and in every action, no matter how disproportionate in number, the American troops have been victorious. And sir, with what a small amount of force the achievements have been accomplished!

Gen. Scott, as I have already stated fought all his severe and murderous battles before the city of Mexico and took the capital of the country with less than 10,000 men, and General Taylor with not more than 5 or 7000 men, the most of whom were volunteers gained several [illegible]. Indeed, Gen. Taylor with less than 5000 men beat Santa Anna with an army of 20,000 strong, and that too not by a sudden burst [illegible] but in a hard fought battle [illegible] the whole of two days. Thus, we see, that on every field we are victorious and she lies broken down and prostrate in the dust, her government is disgraced and almost annihilated by our conquering army. She has no army and scarcely can be said to have a government, it consists of nothing more than disorganized factions. And Mexico now lies prostrate before you without an army or government, with here and there only a body of guerillas, instead of an army to oppose you. What is the nature of hearing [illegible] if this is all that is left to her, do you want with 10,000 more troops? Sir, since these conquests have been achieved what has been done? Our army now reposing on the Rio Grande consists of 3 or 4,000 regulars. Nay I will give the exact number, it consists of 3,937 regulars. At the battle of Buena Vista you had not over 300 regulars and the rest were volunteers. In place of that army less than 5000 strong which constituted the force in that portion of the country before in the [illegible] battle you have now six times the force amounting in the whole to upwards of 19,000 men. Do you want any more there?

I have already stated the force with which Gen Scott obtained possession of the capital now it is with him now. He has been receiving additional reinforcements almost daily since that time and there is now at Tampico and Vera Cruz together a force amounting to 32,156 men, 17,102 of whom are regulars and the remainder 15,055 volunteers. I have stated these as extracts made from the report of the Adjutant General.

Gen Scott's army has been almost trebled in number, since he gained those battles. His force is larger by 15,000 men than when he landed at Vera Cruz. It is thus much stronger than at the time when he conquered the whole [illegible] and the country between Vera Cruz and the Capital and enough he hold the country with the same force with which he conquered it?— How, upon the facts declared to us in official public documents can any argument be found to prove the necessity of sending any further troops there? Gen Scott took possession of the city with 6,000 men, and of the whole region of country with not more than 12,000 men and now when he has with him 32,000 men, what more can be required? Suppose [illegible] the country [illegible] how great is Gen Scott already enabled the number of his force since he entered the Mexican territory? Make what deduction you please on account of casualties and disease—make a reduction of 5,000 and it leaves you 15,000 men for active service. Where, I ask, could 15,000 such men as ours be employed?— What fortress is there that would not open its gates at the sight of our banners? There is not one that will not. And yet we propose to add 31,000 men to the force already there. Sir, these acts lead my mind irresistibly to the conclusion, that for any purpose of conquest even, it is not necessary to have any more men in Mexico. If you have done what you have with that number of men, if they have upon a hundred such victories, surely you have a positive rule established by actual achievements, as to what your army can do.

Cannot double the number of forces with which these victories have been gained conquer all Mexico? Why did you leave your army from Vera Cruz to the capital? Because there you expected to find the more vital parts of the Republic. Well, you have done all this, and still the cry is for more troops. You have had your forces doubled and you want to double them again. If you press this bill, sir, what will then be the strength of your armies in Mexico? What number of men have you there now? I have shown you that under Gen Scott there are upwards of 32,000, and under Gen Wool upwards of 11,000 more making an aggregate of 43,000 American soldiers now within the limits of Mexico.

I reckon only those who are in the heart of Mexico, leaving out those who are stationed in California and at other distant ports. These are southward and westward of the Rio Grande from 40 to 43,000 American soldiers; and during this whole time the recruiting service is going on rapidly. Scarcely a week passes by in which reinforcements of troops are not being landed in Mexico. Now, there are 43,000 troops, as I have said, independently of what these bills propose, and the laws of this country now authorize the enlistment of some 8 or 9,000 men to fill up the ranks of your army. There is also still a deficiency of upwards of 6,000 men in your volunteer service which may at any time be supplied. This is your state of preparation in Mexico. So far as the authority of law extends there troops are in your command. Besides these there is an addition yet to be made, by which our army will be still further increased. The regiment called for from the State of Michigan, has not yet appeared in the field, two other battalions also, one from Alabama and the other from Mississippi from some cause or other have not yet been mustered into the public service and are not included in the estimate.— These regiments added to those which you have the legal authority to send, will make our force there about 60,000 strong.

Add these ten regiments and you will then have seventy thousand American soldiers beyond the Rio Grande, exclusive of those distributed throughout the United States at various posts, and in California and New Mexico. Add again, to this estimate the number that is proposed to be raised by the other bill which has been reported to us, and you will have an army of from 90 to 100,000 men. Sir can all these troops be necessary? Does not this estimate startle the ears of Senators? I confess for one I have been greatly startled, while reading the reports from which I gathered these statements at the vast army which we are now maintaining. And another more startling consideration which ought not to be forgotten or omitted is the enormous cost of every regiment. I am told by those who have entered into calculations on the subject that the average cost of officers and men is nearly $1,000 per man. This subject becomes, then, a matter of some importance to us. Suppose our object is to conquer Mexico and to incur no unnecessary expenses: these ten regiments will add to our expenses nearly 10,000,000 dollars—no small item in the aggregate expenditures of such a contest. I think, therefore for these reasons, that it is highly necessary for us to determine whether all these troops are to be raised, and all this cost to be incurred.

I am perfectly willing to meet every possible contingency of casualty or defeat, but I confess I cannot foresee, at present, any contingency which will justify this increase. I am willing to authorize the President to call out whatever force he may require under such contingency as may hereafter occur but I would not authorize that force to be raised now. I am willing to lodge in the hands of the Executive the power if an emergency demand it to call out thirty thousand additional men for the war, and I would have such force consist of Volunteers.

Now, are not volunteers as good—have they not proved themselves as efficient as regulars? Is not Buena Vista a bright and burning evidence of their efficiency in the field? They may be called out for the same period of service and are entitled to a discharge under the same circumstances, and the difference in cost is great. I would substitute them therefore, for these ten regiments of regulars, and I would accordingly give power to the President to call out the 30,000 additional troops, in case circumstances require the adoption of such a course. In my view, there is no necessity for anything else than this to be done.

Gentlemen have appealed to the authority of information obtained from officers of the army. Why are they here sir? Why are they here reposing in Washington and all parts of the country, if it is not that they are satisfied that the war is closed, that no more battles are to be fought, no more laurels to be won? They have given us ample evidence by the bravery which they have heretofore displayed, that they would not leave the field of their victories if they were not fully convinced that nothing more remained to be done. There is not one who does not believe the war is at an end. There may be a few skirmishes here and there with parties of guerillas, but so far as armies are concerned that will stand before American forces they are never to be seen again in Mexico. This is the opinion of every officer I have spoken with and it is also my opinion. From all the facts to be gathered from liberal reports, we can come but to one inevitable conclusion viz. that their armies are broken to pieces, that the country is given over to the control of factions, and that they can no longer make head against us. You have now an army there of 43,000 men. They are capable of going where they please and staying where they please in all the wide domains of Mexico. I therefore can see no necessity for a further increase of forces at present even if it were the conquest of the whole country that was contemplated, but when it is so limited as [illegible] in which it is proposed to confine this war, there appears still less necessity for such increased provision. It is with these views, and with no feelings of captiousness, from no spirit of opposition to the [illegible] of this war, but simply taking it as it is, that I have been induced to offer the amendment which I have presented, whilst I question the propriety of additional force being now added to our already large and increasing army in Mexico.

Important Letter from North Carolina.

Fayetteville, N.C. March 2, 184[illegible]

Dr Seth W Fowle—Dear Sir: For two years past I have been more or less troubled with a cough. During the past year I was taken with a severe pain in the left side accompanied by a very bad cough and a raising of blood probably a quart or more. In addition to this I sweat profusely at night, which induced me to apply to a physician but received no permanent benefit. I then procured a bottle of Wistar's Balsam of Wild Cherry, which seemed to have the desired effect. I continued to use it and my appetite, which had been very poor returned and with it my strength was restored. After taking four bottles I was completely cured, and have enjoyed good health since.

DAVID R BELL.

The editor of the North Carolinian, although strongly opposed to puffing quack medicines, but believing that Wistar's Balsam of Wild Cherry ought not to be classed with that sort, cheerfully testifies to his knowledge of the truth of Mr Bell's statement in regard to the efficacy of the Balsam.

CONSUMPTION, COUGH, SPITTING OF BLOOD, BRONCHITIS, ASTHMA &c.

To Consumptives.—Four fifths of you are really suffering from neglected colds or an obstruction and consequent inflammation of the delicate lining of those tubes through which the air we breathe is distributed to the lungs. This obstruction produces pain and soreness, hoarseness, cough, difficulty of breathing, hectic fever, and a spitting of blood, matter or phlegm, which finally exhausts the strength of the patient, and death ensues.— JAYNE'S EXPECTORANT NEVER FAILS to remove this obstruction, and produces the most pleasing results. It is certain in its effects, and cannot fail to relieve.

WORMS! WORMS! WORMS!

To remove these troublesome and dangerous inhabitants of the stomach and bowels, which so often impair the health and destroy the life of children, use JAYNE'S TONIC VERMIFUGE, a safe preparation for the removal of the various kinds of worms, Dyspepsia, consumption, want of appetite, infantile fever and ague, and debility of the stomach and bowels and organs of digestion. It is without exception one of the most valuable preparations in the world.

FEVER AND AGUE—CURE WARRANTED.

JAYNE'S AGUE PILLS, which may be had at No 8 South Third street, Philadelphia, are warranted to cure the worst forms of Fever and Ague. The money will be refunded in all cases if they fail to cure—but they never do fail.

A CARD

THOMAS BICKFORD returns to the citizens of Bangor his hearty thanks for the liberal manner in which they have encouraged him in the enterprise of furnishing this market with good fresh fish. He now has the pleasure of saying to the generous citizens of Bangor, that his arrangements are made for a supply of FISH fresh and sweet as in June now through the winter brought by the steamer T F Secor.

☞ All Landlords of Hotels and other lovers of good eating in the country may be sure of finding the best of fresh and salt fish for their tables while city customers will find their orders filled to entire satisfaction, and the fish delivered at their dwellings.

☞ Please to recollect the place, in the basement of the Market House.

COOKING STOVES,

Sold by us since April, 1847.

THE above STOVE stands unrivalled by any other cooking stove in the United States and certainly has many advantages that no other stove ever had. The Ladies admire the TROJAN for the ease and convenience of cooking by it. The ovens are about the only ones in use which will bake quick and even with hard coal, and for wood there never was those equal. Thousands of these Stoves have been sold in this State during the past season and the numerous testimonials in their favor show them to be beyond a doubt, the best cooking apparatus in use. Any number of references given that may be called for, which will prove the above to be correct.

Timber Land for sale.

ABOUT 2500 acres of Timber Land situated in Township No 3 3d Range west from the east line of the State, the same being an undivided third of the north ½ part of said township. The east and west branches of the Mattawamkeag River pass entirely through the tract, making the distance to haul lumber comparatively small.

The facilities for getting the lumber to market are unsurpassed and the expense of driving small, there being those who are always ready to contract to drive logs from this township for from 25 to 37½ cents per thousand feet.

The above property belongs to the estate of a gentleman recently deceased, and payment will be required in cash, or that which will command the same upon the execution of the deed.

Should a partition be desired by the purchaser commissioners for that purpose could probably be appointed by consent of parties.

The land will be sold with or without the interest in the present winter operations.

Vegetable Internal Remedy, FOR THE PILES!

☞ A Cure for Life Secured. ☜

For the cure of Piles, Inflammation of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidney and Bladder, Inflammatory and Mercurial Rheumatism, Impurity of Blood, Weakness and Inflammation of the Spine, etc. for the relief of Married Ladies.

THE VEGETABLE PILE ELECTUARY invented by Dr A. Upham, a distinguished Physician of New York city, is the only truly successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public.

Mark this: it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles, either bleeding or blind, internal or external, and probably the only thing that will. There is no mistake about it. It is a positive cure—speedy and permanent. It is also a convenient medicine to take, and improves the general health in a remarkable manner.

Each box contains 12 powders, at $1 a box per dose. It is very mild in its operation, and may be taken in cases of the most acute inflammation without danger. All external applications are in the highest degree disagreeable, inconvenient and offensive, and from the very nature of the disease, temporary in their effects. This medicine attacks the disease at its source, and REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES

Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine of the rarest virtue [illegible] in cases of Inflammation of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder, Inflammatory and Mercurial Rheumatism, it is the *Best Medicine* ever discovered.

IMPURITIES OF THE BLOOD

For all impurities of the Blood, arising from the imprudent use of Mercury or other causes, for all diseases of the Skin, all Scrofulous Affections, in all cases where the blood is [illegible] DR UPHAM'S ELECTUARY is entirely unrivalled.

TO MARRIED LADIES

Married Ladies are almost invariably subject to that painful and dangerous disease, the PILES, with considerable [illegible] of the Stomach, Bowels and Spine, [illegible] blood to the head, &c.— [illegible] Ladies, and the [illegible] WITHOUT PAIN or DANGER [illegible].

CURE FOR LIFE GUARANTIED

The Electuary contains NO mineral medicine, no Aloes, [illegible] or other powerful [illegible] No [illegible] the [illegible] A CURE FOR LIFE IS GUARANTIED.

GREAT SUCCESS OF UPHAM'S PILE ELECTUARY.

Portland, Me., March 14, 1847

Dr Upham—My dear Sir: I cannot express to you [illegible] the wonderful cure I have experienced by the use of your truly valuable Pile Electuary. I have been a perfect martyr to the Piles for 10 years past [illegible] I have been [illegible] I was obliged to give up my business. [illegible] I then [illegible] your medicine, and [illegible] I am now [illegible] I feel that I am once more [illegible] to [illegible] life [illegible] depend on it.

TO THE PUBLIC.

—o o—

IT is well known that there is secreted in the stomach a fluid which is called Gastric Juice, and that the food when taken into the stomach is acted upon by this Gastric Juice, which is thus converted into a pulpy substance called Chyme; it is passed into the upper portion of the Intestinal canal, there becomes mixed with Bile and Pancreatic Juice, and is by this then termed Chyle, a portion of which is [illegible] and is taken up by small vessels called Lacteals, carried into the system, and converted into blood. The food after being thus changed becomes assimilated, gives nourishment, and supplies the waste of the body; this is the process and effect of Digestion.

How important the effect that the digestive organs perform their functions properly. If there is some [illegible] sympathies existing between the Dyspeptic Stomach and distant parts of the body, some [illegible] the effects of which are being seen—such Headache, Nausea and Vomiting, [illegible] Depression, Mental Derangement, Irregularity of Pulse, Palpitation of the Heart, Difficulty of Breathing [illegible] despondency [illegible] have been prevented by timely attention to the proper [illegible] and proper treatment. It should also be known, that these are the frequent results of the disturbances of the Digestive Organs. When the ordinary Dyspeptic symptoms are not [illegible] and not treated accordingly, [illegible] a [illegible] melancholy [illegible].

A consideration of these facts and observations for more than a quarter of a century in Chronic Diseases [illegible] Proprietor to [illegible] whether there is in the whole catalogue of medicine a combination which is better fitted than all others to remove the far more common causes of these dreadful maladies. DEAFNESS CAN BE CURED!

CONNER'S SEE [illegible] OIL—A prompt and lasting remedy for DEAFNESS, also for pains and discharge of matter from the Ears.

Hundreds of cures in cases deemed utterly hopeless have firmly established its superiority over every former Medical discovery.

This valuable Acoustic Medicine is a compound of four different Oils, one of which, the active and principal ingredient is obtained from the bark of a certain species of Walnut, a new and effectual agent in the cure of Deafness.

Persons who have been deaf for 10, 15 and even 20 years, have been permanently cured by using this Oil. In fact, so numerous and so emphatic have been the testimonials in its favor, that the Inventor claims for it the distinction of an Infallible Remedy in all cases, when the Ear is perfect in its formation.

Highly Important to Farmers.

HAVING purchased the right to use JOHNSON'S Method of making MANURE in all the towns in the County, are previously disposed of, west of Penobscot, and south of Piscataquis rivers, I am ready to sell the same, by towns or individual rights as may best suit purchasers.

When it is taken into consideration, that one ton of dry straw in the space of 17 days be converted into manure equal to eight loads of the best barnyard manure, or that green vegetables and turf can be made into manure of equal value in ten days—and that the high temperature produced by fermentation destroys all obnoxious seeds, this most valuable method may be truly considered as forming a new era in Agriculture. That the foregoing results have been frequently realized by the use of this process I am prepared to show by testimony from scientific and practical farmers in various sections of the country.

Single rights will be sold for the moderate price of four dollars, and the purchaser will be furnished (gratuitously) with a book describing the process of making the foregoing, together with many other kinds of compost manure hitherto unknown in this part of the country. To those who purchase by towns, or to private companies, my terms will be as low as in any other section of the State.

Persons at a distance, by forwarding four dollars, (post paid) will be promptly furnished with a single right and book as aforesaid.

JULES HAUEL'S

PREPARATIONS!

TRY THEM, AND JUDGE FOR YOURSELF!

TO THE PUBLIC.

Wonderful! That's Right—A proper Principle adopted

YOU cannot object to giving my articles a trial. If they are not found to be as represented, return them, and your money will be cheerfully refunded.—Remember, there is no quackery,—no humbug,—hold. A trial will cost you nothing,—so if any one is humbugged it will be myself. With the utmost confidence I recommend to the particular attention of the public the following articles: First—

MY EAU LUSTRAL HAIR RESTORATIVE.

This universally approved and admired article, free from ardent spirits, pungent essential oil, and other destructive materials, cleanses the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers. It excites the scalp to a new and vigorous action, cleanses it from *scurf* and *dandruff,* and its effect in the restoration and growth of the hair is unequalled by any other preparations of the kind. Second—

MY EAU DIVINE DE VENUS AND NYMPH SOAP.

Composed of an Eastern Botanical Discovery of Surprising Efficacy, for rendering the SKIN SOFT AND FAIR, as well as imparting a Delicate Roseate Hue to the Complexion.

No lady's toilet is complete without this article. Its effect on the skin is strikingly beautiful; it removes all harshness, clears the complexion, and leaves a delicate roseate hue that cannot be surpassed. Third—

MY SHAVING CREAM.

"It is a luxury to shave with Jules Hauel's Premium Cream."

This Cream is acknowledged by all who have used it to be superior to any in use. It produces a fine and rich lather. It does not smart or irritate the skin, on the contrary, it is very soft and highly emollient. No person will use any other, after once using this admired preparation. Fourth—

MY DEPILATORY POWDER.

This Powder has never failed to produce the desired effect. Its composition is infallible, and warranted to remove superfluous hair. Many ladies have used it, who were afflicted with hair on the sides of the face, arms, &c., giving a masculine turn to the features, and witnessed its happy effect. Fifth—

MY CELEBRATED VEGETABLE LIQUID HAIR-DYE.

A Chemical Result to enable persons to dye their hair instantaneously, without the least inconvenience.

"My white hair has been changed like magic by using one box only of Jules Hauel's celebrated 'Vegetable Liquid Hair Dye.'"

For changing red or grey hair, whiskers, eye-brows, &c., to a brown, black, or chestnut color. The slightest evil consequences need not be feared from its use—it is altogether harmless. This composition is the only one sanctioned by the science of chemistry, to dye, in an incredible manner, the various gradations of colors, with no danger or inconvenience, and has justified the liberal patronage and unlimited confidence of the public.

☞ *Beware of Counterfeits!* Ask for "Jules Hauel's Vegetable Liquid Hair Dye," if you want the genuine article. Sixth—

MY UNRIVALLED ROSE TOOTH PASTE.

Is universally sought after, for the pearly whiteness it gives to the Teeth, without the slightest injury.—Seventh—

MY CELEBRATED PERSIAN OR CHINESE POWDER.

Patronized by the Fashionable World of the United States and under the immediate patronage of the Ladies.

This powder is unequalled for the nursery, for restoring, beautifying and preserving the complexion, rendering the skin delicately white, smooth and soft, preventing cutaneous eruptions, chapping, and obstructing copious perspiration. Travellers and residents in warm climates will highly appreciate this grateful appendage to the toilet.

NINE HUNDRED DOLLARS REWARD

Will be paid to the person who will prove that Jules Hauel's *Vegetable Liquid Hair Dye* is not the best,—the very best, yet known in this country or in Europe.—This valuable discovery will enable a person to dye instantaneously the hair or whiskers, in a few minutes, without the least inconvenience. The preparation is warranted not to wash out, not to injure the health of the hair, and retain all its softness and brilliancy.

From a celebrated Chemist of the City of Philadelphia

"Dear Sir—It is with a high degree of pleasure that I furnish you with my testimony in favor of your *Eau Lustral Hair Restorative.* I have been surprised by its wonderful and beneficial results, and have no hesitation in saying, that I believe it to be the most valuable and unique in any discovery ever known for restoring and reproducing a fine and luxuriant head of hair. In regard to the *Nymph Soap, Hair-Dye, Rose Tooth Paste, Depilatory Powder* and *Shaving Cream,* I must say that they are scientifically compounded, and that it is a real luxury to use them. Yours, &c.,

JOHN PARK, Chemist,
President of the Manufacturers' and Mechanics' Bank, Philadelphia."

MR. JULES HAUEL:

"Try it! Try it! It is furnished Gratis"

The most positive and convincing proof of the superiority of an article depends on the favor and satisfaction it has received from those who have used it.—With respect to my *Shaving Cream,* it is always used with satisfaction and has everywhere met with universal approbation.

Those persons who have not made use of this delightful preparation may, by calling at the Store of the Proprietor, No 120 CHESTNUT street, receive without charge, a small box for trial, as I am determined to let all try it and judge for themselves.

Prepared and sold, *Wholesale and Retail,* by
JULES HAUEL, Practical Chemist and Perfumer.

An Extract from the Report of the Judges of the "Franklin Institute of Pennsylvania."

"After a minute and careful examination of the preparations submitted to our notice by Jules Hauel, Chemist and Perfumer, of the city of Philadelphia, we do not hesitate to pronounce them truly valuable preparations, well calculated for the toilet."

READ THE CERTIFICATE!

"The Franklin Institute, of the State of Pennsylvania for the Promotion of the Mechanic Arts, have awarded to Jules Hauel, of Philadelphia, their Testimonial of their approbation for the skill and ingenuity displayed in the manufacturing of his celebrated 'EAU LUSTRAL HAIR RESTORATIVE,' and other perfumery, deposited at their late Exhibition of Domestic Manufactures in the city of Philadelphia.

From CONSTANT GUILLOU, Esq., Attorney at Law, and Notary Public, Philadelphia.

"From personal acquaintance with Jules Hauel—an experienced and Fashionable Perfumer and Chemist—I was prepared to appreciate the numerous testimonials in favor of his different fashionable preparations. On trial of them in my own family, and some of them personally, I have more than realized their favorable anticipations;—they are, what they profess to be, scientifically prepared and compounded. I have at all times since my experience, been convinced of the great merit of the *Eau Lustral Hair-Restorative, Shaving Cream, Nymph Soap,* and, in fact, all the popular preparations of Mr. Hauel.

It is with the greatest pleasure that I can recommend the above articles to all of my numerous friends, and the public. They are, in their way, invaluable.

CONSTANT GUILLOU."

From DANIEL J. DESMOND, Esq., Attorney at Law, Consul General of Pontifical States, Vice Consul of Austria, Sardinia, Portugal and Tuscany.

"To MR. JULES HAUEL.

Sir—Though I have not the pleasure of a personal acquaintance with you, yet a sense of duty to yourself and the public generally, constrains me to bear my unsolicited testimony in favor of your different fashionable preparations. On trial of them in my own family, and some of them personally, I do positively declare that they are what they profess to be, skilfully prepared and compounded. I am convinced of the great worth or merit of the Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap and Rose Tooth Paste.—I am fully satisfied of their intrinsic worth, and do heartily recommend them to all for the use and purpose they are intended. Nothing can excel the beauty and lustre imparted to the hair by the use of the Eau Lustral Hair Restorative. It invigorates the hair and promotes its growth. The Shaving Cream is unsurpassed and decidedly excellent, being a fine and highly emollient composition—it does not smart or irritate the skin, while the Nymph Soap operates beautifully upon the pores of the skin, and cleanses it from all impurities. The Rose Tooth Paste imparts to the teeth a pearly whiteness, and is well calculated to preserve the teeth and gums from decay. They are in their way invaluable.

I have seen some of my friends who have used your Vegetable Liquid Hair Dye, its effect is really a wonder. It dyes the Hair in an incredible manner in a few minutes, and the color of the hair is really beautiful, and none could detect the artificial colour, as it is so natural. Yours &c. DANIEL J. DESMOND.

Dr. Townsend's

SARSAPARILLA,

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD!

This extract is put up in quart bottles, it is six times cheaper, pleasanter, and warranted superior to any sold. It cures diseases without vomiting, purging, sickening or debilitating the patient.

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates disease it invigorates the body. It is one of the very best Fall and Winter medicines ever known, it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood, a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the past two years, more than 35,000 cures of severe cases of disease, at least 20,000 of these were considered incurable.

More than 3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,
4000 cases of General Debility and Want of Energy,
7000 cases of the different Female Complaints,
2000 cases of Scrofula,
1500 cases of the Liver Complaint,
2500 cases of Diseases of the Kidneys and Dropsy,
3000 cases of Consumption,

and thousands of cases of diseases of the blood, viz:—Ulcers, erysipelas, salt rheum, pimples on the face, &c. &c., together with numerous cases of sick headache, pain in the side and chest, spinal affections, &c. &c.

This, we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing us of extraordinary cures. R. Van Buskirk, Esq., one of the most respectable druggists in Newark, N. J., informs us that he can refer to more than 150 cases in that place alone. There are thousands of cases in the City of New York which we will refer to with pleasure, and to men of character. It is the best medicine for the preventative of disease known. It undoubtedly saved the lives of more than

5000 CHILDREN, THE PAST SEASON,

as it removed the cause of disease, and prepared them for the summer season. It has never been known to injure in the least the most delicate child.

RHEUMATISM.

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful. Other remedies sometimes give temporary relief, this entirely eradicates it from the system, even when the limbs and bones are dreadfully swollen.

☞ Hear Mr. Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn. The following is an extract of a letter received from him:

Dr. Townsend—I have used one bottle of your Sarsaparilla, and I find it is excellent in its effects upon a chronic rheumatic pain to which I am subject, from an injury occasioned several years ago in a public stage. Please send me two bottles to the care of Dr. Seymour. I have conversed with two of our principal physicians and recommended your Sarsaparilla. SETH TERRY

Hartford, March 15, 1845.

CONSUMPTION CURED.

Cleanse and Strengthen. Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or Profuse Expectoration, Pain in the Side, &c., have been and can be cured.

Dr Townsend—Dear Sir: Nearly twenty years ago I took a violent cold, which settled on my lungs, and affected me severely; indeed, finally it became a constant hacking cough, but not so severe as to prevent me from attending to my business. Within the last few years it increased on me gradually. At last I became reduced—I breathed with difficulty, and raised with my cough much bad matter; and for the last nine months previous to using your Sarsaparilla, had regular night sweats, indeed, my friends and myself supposed that I would die with the Consumption, but I have the happiness to inform you that, to my surprise, after using three bottles of your Sarsaparilla, I find my health restored. It relieved me gradually, and I am now enjoying much better health than I have before in 20 years. I had almost entirely lost my appetite, which is now returned. You are at liberty to publish this with my name in the papers, if you choose.

My little girl, who is three years old, had a very bad cough the whole of last Winter. We became very much alarmed on her account. While using the medicine I gave her some of it, and it soon entirely relieved her, as well as myself, and she is well now, and hearty, as any child I ever saw. She was also full of little blotches, it took them away, and her skin is smooth and fair now, and I am satisfied she recovered her health from using your excellent medicine.

S. W. CONANT, 441 Bowery

GIRLS, READ THIS

You who have pale complexions, dull eyes, blotches on the face, rough skin, and are "out of spirits," use a bottle or two of Dr. Townsend's Sarsaparilla. It will cleanse your blood, remove the freckles and blotches, and give you animation, sparkling eyes, fine spirits, and beautiful complexion—all of which are of immense value to unmarried ladies.

GREAT FEMALE MEDICINE.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumption, Barrenness, Leucorrhœa, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity, illness or accident.

Nothing can be more surprising than its invigorating effects on the human frame. Persons, subject to weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of barrenness.

It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us. Several cases where families have been without children, after using a few bottles of this invaluable medicine have been blessed with a healthy offspring.

Dr Townsend: My wife being greatly distressed by weakness and general debility, and suffering continually by pain and a sensation of bearing down, falling of the womb, and with other difficulties, and having known cases where your medicine has effected great cures, and also hearing it recommended for such cases as I have described, I obtained a bottle of your Extract of Sarsaparilla, and followed the directions you gave me. In a short period it removed her complaints and restored her to health. Being grateful for the benefits she received, I take pleasure in thus acknowledging it and recommending it to the public. M D MOORE

Albany, Aug 17, 1847 Cor Grand and Lydius sts

TO MOTHERS AND MARRIED LADIES.

This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "the turn of life," should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable to those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all of the delicate diseases to which women are subject. It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating the system as to produce a subsequent relaxation—which is the case of most medicine taken for female weakness and disease.

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control of the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.

THREE CHILDREN.

Dr Townsend: Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine.—They were afflicted very severely with bad sores; have taken some four bottles, it took them away, for which I feel myself under deep obligation. Yours respectfully,

ISAAC W. CRAIN, 106 Wooster-st.

HOUSE KEEPERS should be sure and examine this superior Stove which has won the admiration of several thousand house-keepers the past season. It has more real and useful improvements than all others combined. The fire brick Oven-top has proved to be of great value in absorbing the steam and causing the bread to rise and bake light, (equal to the house brick oven.) The brick is found to be more durable than the iron top. It also equalizes the heat around the oven, and a much more even bake is produced in this stove than any other stove known. It has a most perfect arrangement for roasting in front. The Summer arrangement for broiling, boiling, toasting, &c. is complete. The grate clears itself discharging the ashes into the ash pit. The flues are large, and so arranged as not to fill up with ashes. It is surprising to see how small an amount of fuel it requires to perform so great a variety of cooking. Its inviting appearance, substantial construction, and general good qualities have set it forth to be
